

**Physical Education Games Class for:
 Home Learners – Grade Equivalents K-8**

**WINTER 2019 -
 Register
 now to reserve a
 spot ... NEW
 GAMES!**

As part of the Sport Science course, “**Games approach to Teaching and Coaching**”, Douglas College, Bachelor of Physical Education and Coaching students are implementing a 8 session program for groups of students in the equivalents of grades K-8. The focus is on team work, fun and the tactical components of games, playing non-traditional small-sided modified games that transfer across and into traditional team sports. The emphasis will be learning games for understanding, fun, and quality physical activity.

NEW: As started in Fall 2018, target, net and wall, striking and fielding, Aboriginal (First Nations), and games from around the World will be added to the existing invasion and territorial games program. All grade groups will be taught these new game types to promote and provide for a more balanced games, student, and teaching experience!

Course details:

- Dates:** Mondays, 12:30-1:45pm, February 4 to April 1;
 NOTE: No session on Feb. 18 – BC Family Day
- Location:** Douglas College Gymnasium, New Westminster Campus, 700 Royal Ave.
